STORMTECH®

nurtured by nature

Polos & Tees

It's hard to imagine a world before Polos and Tees, especially when the sun comes out to play. As one of the most in-demand and versatile wardrobe items, they are that essential addition you just can't live without. Whether you require high-tech performance with moisture management technology, industrial strength fabrics, or casual day-to-day attire, our on-trend range of Polos and Tees exude quality, style and a keen eye for fashion.

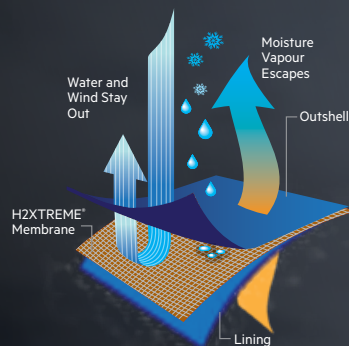

STORMTECH® FABRIC TECHNOLOGY

TECHNICAL CLIMATOLOGY

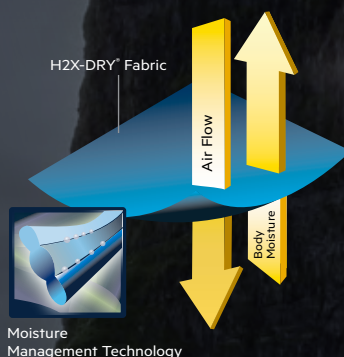

Ultimate weather protection through advanced waterproof/breathable technology—perfected to keep moisture at bay, inside and out.

H2XTREME
WATERPROOF. BREATHABLE.

ACTIVE MOISTURE MANAGEMENT

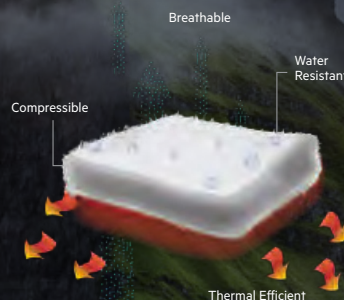

Next-to-skin climate control with moisture management technology to regulate your core.

H2XDRY
MOISTURE MANAGEMENT

LIGHTWEIGHT ELEMENTAL DEFENSE

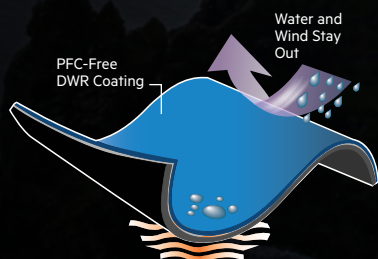

Highly efficient and highly compressible synthetic down alternative—maximum warmth in extreme cold.

FEATHERFREE
THERMAL SHELL

PFC-FREE DWR WATER RESISTANCE

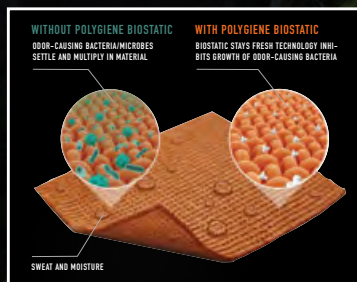

The PFC-Free DWR (Durable Water Repellent) technology is a polymer coating added to outerwear to provide water-resistant protection. DWR treated fabrics prevent light rain and snow precipitation from saturating the outer fabric surface and prevents fabric from becoming weighed down by excess moisture, leaving the wearer to enjoy comfort and optimized comfort and freedom of movement.

PFC-FREE DWR

ODOR CONTROL

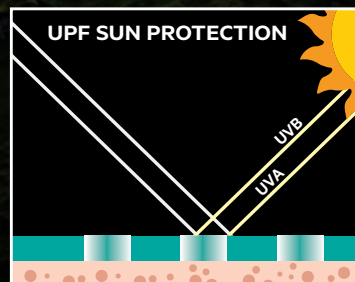

Polygiene® makes your products stay fresh, which means that you can enjoy fresh-all-day confidence, as well as wear your products more and wash them less. Saving you time, water and waste – and not least, the product itself.

Polygiene®
STAYS FRESH

SUN PROTECTION

STORMTECH UPF Protective products are designed with engineered fabrics to provide sun protection to the wearer as well as extra comfort and coolness.

UVX
SUN PROTECTION

Environment Stewardship

INTRODUCING PURE EARTH

We're on a mission to make clothing sustainable through product design, sourcing, and compliance. These new products represent another milestone on the road to sustainability with recycled fibers and BCI cotton. The Pure Earth by STORMTECH collection includes products made from Recycled Polyester (RPET) and certified BCI Cotton. By turning discarded plastics into Polyester and committing to sustainably sourced cotton, STORMTECH is reducing the waste and environmental impact associated with apparel production.

RECYCLED POLYESTER

- The Pure Earth Collection uses Polyester regenerated from PET plastic found in landfills and oceans. The fabrics are certified recycled materials by a GRS (Global Recycle Standard) Certificate.
- These new sustainable products give materials a second life. Using recycled polyester also reduces plastic waste and stops it from ending up in landfills.
- As climate concerns continue to grow, environmental sustainability has been at the forefront of our product design principles. Sourcing recycled fibers will lower the carbon footprint of STORMTECH products.

CERTIFIED BCI COTTON

- The Better Cotton Initiative (BCI) is a global not-for-profit organization and a cotton sustainability program. It aims to make cotton production more sustainable by intending to minimize the negative impact of fertilizers and pesticides, and care for water, soil health, and natural habitats.
- BCI Cotton promotes better working conditions for farmers and farm workers concerning health and safety, freedom of association, child labour, forced labour, and non-discrimination. BCI Cotton is traceable to farm/field level.
- Through BCI and its Partners, farmers receive training on how to use water efficiently, care for the health of the soil and natural habitats, reduce use of the most harmful chemicals, and apply decent work principles.

INTRODUCING CLIMATE SMART

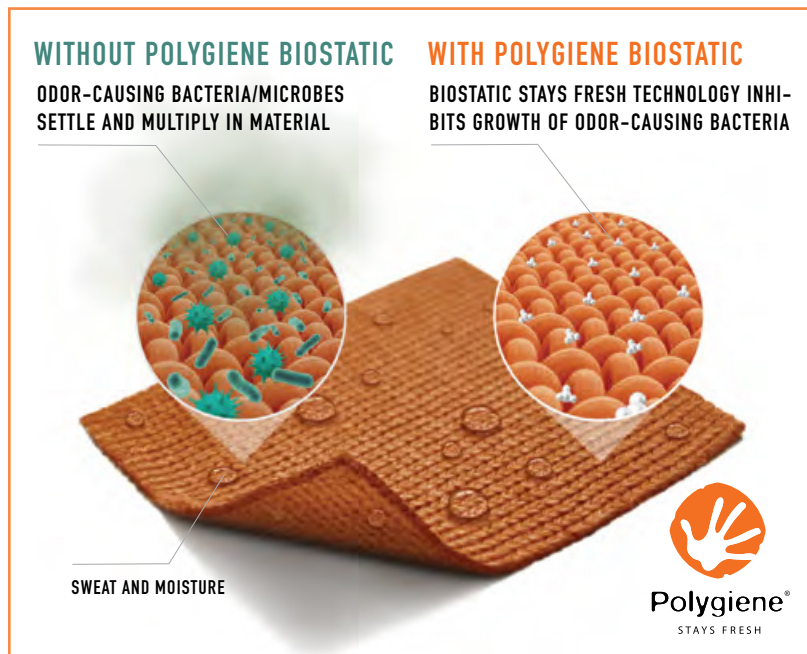

POLYGIENE STAYS FRESH[®]

**WEAR MORE
WASH LESS[®]**
SAVE ENERGY-SAVE WATER

Wear More. Wash Less. Recycled materials, safer chemicals, and lifecycle analysis are just a few examples of the steps apparel brands are taking to understand and reduce their impacts on the environment. While these efforts are important, consumers can do even more to reduce the environmental impact of apparel simply by washing clothes less frequently. Polygiene technology enables this by controlling odor in textiles. If we all Wash Less, we reduce our carbon footprint, extend the life of our clothing and save energy, water, time and money.

INSPIRED DECORATING TECHNIQUES

At STORMTECH we offer a comprehensive array of in-house decoration techniques to present your brand artwork on our premium apparel, bags, and accessories. We meticulously test each decoration technique on every product to ensure we recommend the most suitable method for each individual product.

Our team of decoration experts are happy to assist you to choose the best technique, and can provide client-friendly virtual samples and artwork proofs to make it easy.

Reach out to a STORMTECH decoration expert today.

EMBROIDERY

Evolved from artisan handwork to high-speed, multi-head computerized machines, embroidery is a high-density, decorative stitching technique suitable for most fabric types.

At STORMTECH, our expert staff use state-of-the-art digitizing software tools, embroidery machines, and best-in-class threads to apply embroidery on a wide range of apparel, bags and accessories.

HEAT TRANSFER

Heat Transfer is a technique where logos are digitally printed onto transfer paper. The logo on the heat transfer paper is then transferred onto a substrate using heat and pressure. This high quality, full-colour heat transfer technology allows for high definition detail - including free-standing text - and has superior adhesion and durability.

SCREEN PRINT

Screen printing is a technique that involves using a woven mesh screen that supports an ink-blocking stencil. Ink is transferred through the permeable areas of the woven mesh screen onto a substrate to receive the desired image.

ETCHED PATCH

Create a premium, luxury look and feel using STORMTECH's faux suede and faux leather patches. Laser etched patches are an ideal decoration technique to showcase and elevate your brand artwork on a wide range of apparel, bags, and accessories.

STORMTECH CUSTOM DESIGN

Work with our team to execute your custom designed apparel using STORMTECH's leading edge decorating and design techniques. Whether it's a special colour, fabrication, design modification or fully customized product, we have the ability to design and manufacture according to your client's unique requirements.

STORMTECH CUSTOM PERFORMANCE APPAREL

Customize colours, trims, and decoration on our top selling apparel styles, now with minimum order quantities as low as 600 pieces.
